

DATE: August 17, 1972

To : **Acting** Regional Director
From : Grants-in-Aid Project Officer **Williams**
Subject: Final ~~inspections~~ Inspection

State: Tennessee

Project No. 47-00065

Project Title Red Bank City Park Development

Findings:

I visited this park on August 1, 1972, with Mr. Jerry Dillahay from the State office.

All work has been completed; however, the final billing has not been received by the Bureau of Outdoor Recreation.

The area appears to have very limited use as there was no one in the park when my inspection was made. Several items in the park were poorly planned and built. The amphitheater is about to wash away after several attempts to control erosion. Cuts were made for the road that leave only red clay showing; due to the steepness of these cuts erosion is quite bad.
